

## Personal Best Performances 1993 to Present (updated on 11/10/06)

A message from Coach Ertl on course length and times: We have tried to rank up the performances run at Lakeville High School and Lakeville North High School over the past 14 seasons. This task is compounded by the fact that many of the courses we run on change slightly each year. When a course is known to be short we have not used those times in our rankings and instead look to efforts run on courses we trust to be accurate in length.

## Personal Best Performances 1993 to Present (updated on 11/10/06)

A message from Coach Ertl on course length and times: We have tried to rank up the performances run at Lakeville High School and Lakeville North High School over the past 14 seasons. This task is compounded by the fact that many of the courses we run on change slightly each year. When a course is known to be short we have not used those times in our rankings and instead look to efforts run on courses we trust to be accurate in length.

## Personal Best Performances 1993 to Present (updated on 11/10/06)

A message from Coach Ertl on course length and times: We have tried to rank up the performances run at Lakeville High School and Lakeville North High School over the past 14 seasons. This task is compounded by the fact that many of the courses we run on change slightly each year. When a course is known to be short we have not used those times in our rankings and instead look to efforts run on courses we trust to be accurate in length.
